Language	English
Item Size	65.5M

Full Tilt! Pinball is the first pinball simulation game developed by Cinematronics, LLC.

The game includes three boards:

- *Dragon's Keep* - Medieval Fantasy theme;
- *Skulduggery* - Pirate theme;
- *Space Cadet* - Space ship commander theme.

Each board features the usual amount of bumpers, targets, ramps, etc. as well as a big payoff for the successful completion of each table, such as slaying a dragon in *Dragon's Keep*, or creating a black hole in *Space Cadet*. Different sounds and music are incorporated for the individual tables.

The games are played using keyboard keys and include being able to *nudge* the tables. Being too forceful with a nudge will result in a tilt and end that turn.

Subject: Great collection of Pinball games!
Thanks a lot for the upload. You need to install a patch to run the games on modern Windows and a MIDI player to be able to hear the soundtrack, along with a soundfont in SF2 format. I recommend VirtualSynthMIDI and a Roland SC-55 soundfont that you can easily easily on the web.

Subject: My Favourite Table
My favourite table of all time in this Game is Space Cadet because of the awesome nostalgia fuel from playing it on Windows XP.
